

Who We Are

Almond Communications is a customer-focused Information Systems and Services Marketing and consultancy firm that consistently provides timely cutting edge business solutions for best Return on Investment, Business Value and Customer Satisfaction. Since inception in July 2002, we have provided solutions and services that 'Make Continuous Improvement A Reality' for your business.

What We Do

We provide a broad portfolio of high quality Web and Online Managed Services and I.C.T. solutions to customers in various fields: Corporate, SME, Individual, Local and International. We also have several strategic partnerships to leverage our core competencies and advantages.

Our principal solutions are:

- ❑ Web Design and Development, Hosting and Internet Domain Name Management
- ❑ Online Marketing Services

Others include:

- ❑ Networking for Voice and Data Communications
- ❑ Data Recovery and Storage

Almond is a leading player in the development of Web marketing channels and general Internet websites. Few companies will be able to generate the organic Internet traffic, targeted relevance, and visitor fulfillment that Almond is currently deploying. Our websites, portals and virtual arenas are designed to connect millions of visitors with the products and services they need each day. As a professional and trusted consultant, Almond provides the best solutions for businesses and individuals looking to maximize return on their business investments and realize true enhancement of their business value. Our deep market and industry knowledge in I.C.T. and the market enables us to help our B2B and B2C clients address issues specific to their businesses, and our unmatched "Enjoyable Service" ensure that we continue to provide exemplary service to our clients.

How We Do It - A Customer Driven Approach

Our skill and experience in business and ICT Systems, Networking and Internet Technologies to ensure that our clients enjoy excellent service and true enhancement of their business value. We deploy a best-of-thought Almond solution set combined with best-of-breed technology model for the service delivery of our solutions and services. With carefully selected local and international partners, we have a suite that exceeds our clients' expectation of truly cutting edge business solutions.

More importantly, our passion for "Enjoyable Service" goes further to guarantee customer satisfaction. Almond helps customers to reliably, efficiently and cost-effectively realize maximum benefit from their business investment. Whatever your information technology or business development / management requirements, we have a solution that suits your needs.
